DEMPSEY'S ESTATE ONCE CONSISTED OF A SHIRT AND A COLLAR BUTTON

By International News Service.

Goldfield, Nev., June 16.—What a difference a few years make!

In 1915 Jack Dempsey fought in Tonopah and Goldfield, Nev. At that time he was living in a cabin in Goldfield, about a mile from the railway station. One night he boxed Johnny Sudenberg. The next morning "Doc" Lewis, a telegraph operator who lived next door to Jack humble abode, saw the latter leaving with a big suitcase. "Doc" was in his jitney bus. Noticing the size of Dempsey's suitcase he said:

"Where are you going?"
"Going to pull out," said Jack.
"Get in and I'll give you a ride," said "Doc." "That thing will get heavy before you get to the depot," "No, that's all right," replied Dempsey. "It won't get heavy. All I have in it is a shirt and a collar button."

And today Jack has a flock of trunks, a private secretary and a luxurious limousine. What a difference a few years make!

According to statistics gathered by the cooperative crop reporting service, Nodaway county with 188,167 acres planted to corn led the state in 1920. St. Charles county with 87,432 acres of wheat led in that grain, while Audrain county with 76,332 acres of oats was in the banner bearer in that respect. Clark county led the list with 4,687 acres of rye and Perry with 1,099 acres of barley topped the other counties of the state in that respect. St. Louis county cultivated 5,593 acres of potatoes and Platte county devoted 2,467 acres to growing tobacco.

The county court of Pike county is coming to appreciate the value of the county farm bureau. The court has increased the annual appropriation for the work \$650 to \$780 a year for the next three years. County agent, E. R. Keller, reports that through the activity of the county farm bureau more than 900 tons of ground limestone have been used in that county since last fall. A farmers' elevator and warehouse association with a membership of 75 per cent of the grain growers of the vicinity was organized recently at Clarks-ville.

According to County Agent Kindard of Nodaway county, there is one case on record where shooting the bull is commendable. That is in connection with the Better Bulls contest now in progress in Missouri, which already has resulted in more than 200 scrub sires being banished from the state.

The bulk of sales of important farm products has dropped to 1914 prices or lower, according to statistics compiled by the cooperative crop reporting service of Missouri. Comparisons of prices in May, 1914, with May, 1921 prices (1914 prices first in each case) show: Fat hogs, \$7.60 against \$7.20; beef cattle, \$6.50 against \$6.20; veal calves, \$7.70 against \$6.80; Sheep, \$4.50 against \$4.60; wool, 19 cents against 17 cents; milk cows, \$60 against \$54; horses, \$124 against \$75; corn 78 cents against 62 cents, oats 46 cents against 46 cents. Farmers generally are realizing that their only hope of salvation is through efficient organization, locally, and in state-wide and nation wide associations.

E. B. Newsom, little daughter of our late Methodist pastor, who now resides at Essex, was here last week visiting her uncle, J. Hall Puckett.

WANTS UNTYING OF DIVORCE KNOT MADE EASIER

By International News Service.

Boston, June 16.—While other states are planning more stringent marriage and divorce laws, the Massachusetts Legislature is considering a measure aimed at speedier severing of the marital knot. The House has passed a bill to allow uncontested divorce cases to be transferred from Superior Civil to the Probate Courts. Clogged courts now delay separations. The Senate has yet to act on the measure.
